## FIBERGLASS STRUCTURAL PROFILES

Fiber Reinforced Plastics (FRP) is an alternative to the traditional building materials such as wood, steel or aluminum. Versatile, colorful and virtually maintenance free, FRP offers a high performance design. At D.E.F.I we have the technical knowledge, experience and product availability rivaled by no other. Custom and Turn-key projects are our forte.

Call us or visit our website at [www.defifiberglass.com](http://www.defifiberglass.com) for product availability.

### Applications

- Architectural Screens
- Sunscreens
- Water Park Structures
- Water Fountains
- Rooftop Concealment
- Docks and Piers
- Fencing Systems
- Aquarium Applications

### Features

- Maintenance Free
- UV Stable
- Custom Colors
- High Strength
- Light Weight
- Flame Retardant
- Easy to Fabricate
- Impact Resistant
- Rot Resistant
- Radio Wave Transparent
- Lower Life Cycle Cost

### Design Services

- Engineering
- Custom Fabrication
- Installation Services
- ADA and VGB Certified
- LEEDS Benefits
